

Introduce myself

Osamu TAYA, am planing to make the Asosiation for support the junior high school students in ATLAS region (around Imlil,Asni,Tahanout,Ourica), who don't have the effective transportation to the school from 2019. (I participated in the JICA volunteer as teacher of science for 2 years before).Now I am trying various ways to get money while engaging with Morocco.

(1)the reason to nominate

I would like to make the bridge for the Japanese company which are interested in the Moroccan Market as business in respect of Consumer side(not B to B business) and also I would like to realize various event and seminar as Japanese.

(2)How contribute to MBC-J

I have 2 Business skills. First is Marketing and other one is Direction (for making the Website and Audio visual)

Thus I think that....

1. be able to gather the Japanese who are interested in Moroccan Business and culture deeply (cf. JICA Volunteer)
2. be able to make and edit the contents to publish the activity to Ordinal Japanese media (cf. making short Video and magazine)
3. Now I am working as freelancer, Thus when I am in Japan, it is easy to handle my time!
